

HOW CSMT CAN TRANSFORM TECHNICAL EXPERTISE INTO
A SCALABLE INDUSTRIAL RELIABILITY BUSINESS

CSMT

FROM INDUSTRIAL NETWORK DIAGNOSTICS TO
RELIABILITY-AS-A-SERVICE

THE STORY WE'RE

1- THE PROBLEM

2- THE COMPANY

3- THE MARKET

4- THE TECHNOLOGY

5- THE AI ROADMAP

6- THE BUSINESS MODEL

7- THE STRATEGY

8- THE OUTCOME

AGENDA

02

TELLING TODAY

Factories are flying blind.

€50K / min

max. cost of a production
stoppage in automotive

Source: [Sumitomo Drive Cost of Downtime Report, 2025](#)

67%

of Italian industrial networks
run on PROFINET

Source: CSMT Innovation Hub internal estimate

\$1.5T / yr

lost globally by Fortune 500 to
unplanned downtime

Source: [Siemens True Cost of Downtime, 2024](#)

Technology exists. Data exists. Customers exist.

The real challenge is proving the
value of continuous monitoring
before failures happen.

ABOUT CSMT

Italy's sole accredited PI Competence &
Training Center for PROFIBUS and
PROFINET – Brescia, Lombardy

02- THE COMPANY

20+ Years

Field experience in
industrial
communication
diagnostics

PI Accredited

Only Italian
Competence &
Training Center for
PROFIBUS/PROFINET

1,600+ Clients

Cross-sector
ecosystem across
automotive, F&B,
metalworking

Full Stack

Software + auditing
+ consulting
+ training
+ applied research

Current Model: Software licensing · One-off troubleshooting · Training & certification · Network auditing
Predominantly project-based, reactive, non-recurring. Strong credibility – limited scalability.

5 Tailwinds - all pointing at CSMT.

Five independent market forces are converging – and all of them favor an independent, protocol-specialist like CSMT.

\$15.2B fieldbus market by 2033

PROFINET dominates with 67% share;
industrial comms growing at 5.8%
CAGR

Source: [Verified Market Reports, 2025](#)

73% of large manufacturers are deploying or actively planning IIoT investments

Source: [Deloitte Smart Manufacturing Survey, 2025](#)

IEC62443 becoming the reference standard for OT cybersecurity

OPC-UA Interoperability layer

CSMT's brownfield expertise –
connecting legacy PROFIBUS to
modern OPC-UA – is rare

\$12B+ Predictive maintenance market

Network reliability is the
prerequisite for any predictive
maintenance investment to work

PNT ONLINE - THE DATA MOAT.

- ✓ Continuous, non-intrusive PROFINET monitoring
- ✓ Topology Mapping - full cable map, port-by-port
- ✓ Trend & History – ~30 variables, 300M data points/year per plant
- ✓ MQTT + OPC-UA integration with enterprise systems
- ✓ No firmware changes · No PLC agent · No plant modification

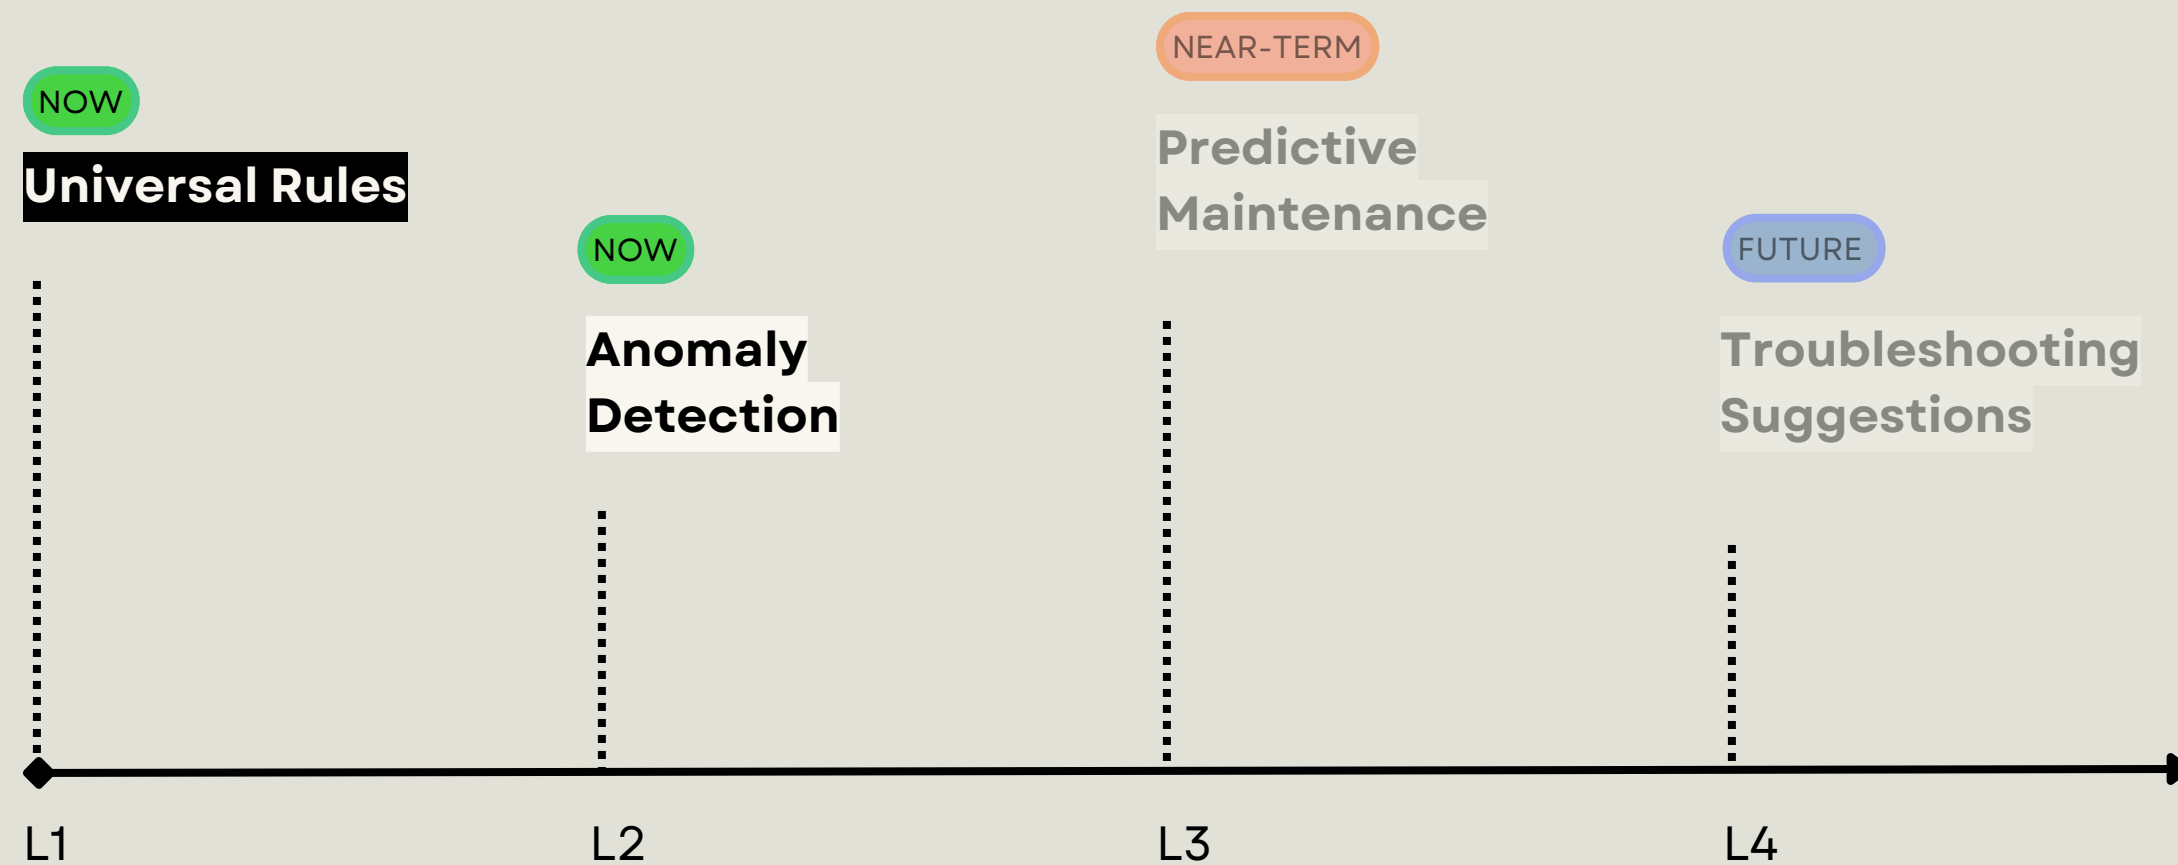

Key Insight: The data pipeline for AI is already in place. PNT Online is not just a monitoring tool – it is the foundation of a predictive intelligence platform.

4 Layers - 2 are ready now.

AI is the enabler of the business model, not the product itself.
Layers 1 and 2 are deployable now.

From AI Capabilities to... Service Tiers.

1-AI CAPABILITY —————> 2-WHAT IT ENABLES —————> 3-SERVICE IMPACT

- ✓ Universal Rules
- ✓ Anomaly Detection
- ✓ Predictive Maintenance
- ✓ Troubleshooting Suggestions

- ✓ Detect standard network issues
- ✓ Identifies abnormal behaviors
- ✓ Anticipates future failures
- ✓ Provides guided instructions

- ✓ T1: Network Health Check
- ✓ Strengthens T2: Monitoring
- ✓ Enables T3: Predictive Reliability
- ✓ Future Development for T4

Technology enables the service. The service captures the value.

NOW

T1 - NETWORK HEALTH CHECK

AUDIT, RISK ASSESSMENT, PRIOTIREZED ACTIONS

NOW

T2 - CONTINUOUS MONITORING

PNT ONLINE, DASHBOARDS, ALERTS, REPORTING

NEAR-
TERM

T3 - PREDICTIVE RELIABILITY

ANOMALY DETECTION, PATTERN RECOGNITION

FUTURE

T4 - RELIABILITY PARTNER

SLA, STRATEGIC ADVISORY

RELIABILITY
AS-A-
SERVICE

WHERE CSMT WINS.
